

# Fisherman Islands Cargo Terminal

## Memorandum

**To** Shipping Lines; Shipping Agents,  
Transport Operators and other parties

**Date** **25th March 2009**

**Subject** Reival and Delivery hours

**CC** Patrick General Stevedores  
P&O Automotive and General

Ladies and Gentlemen

Due to the drastic downturn in Import Cargo Volumes, AATFI will be suspending their current R&D Evening shift arrangements as from **Monday 30<sup>th</sup> March 2009**.

The new hours of R&D operation at the FICT facility will be **0600hrs to 1600hrs Monday to Friday**, with the last truck to have its paperwork serviced to enter the facility by **1500hrs** (unless prior arrangement is made with site management).

Consideration will be given to Evening Shift requests made by Transport Companies and Consignees, if the volume of Cargo to be handled justifies the request.

Parties will need to notify AAT of any Evening Shift requests approx 48hrs prior to enable AAT to plan operational needs to service requirements or work out other suitable arrangements.

It would be appreciated if you could communicate this to your staff and customers.

Regards

**Loretta Penman**  
**Shipping Superintendent**  
Fisherman Islands
