Dear Craig,

### **Tariff Reviews**

I refer to your letter dated 29/4/10 advising of the Tariff Reviews commencing from 1<sup>st</sup> August 2010.

ASA affected member companies want to object to the 17.3% increases applying to Port Kembla.

The members in question consider the increase may have been based on a volume throughput adversely affected by the onset of the 2008 GFC and that such volumes are not a true reflection of what may be regarded as a normal volume of our respective cargoes.

Please contact me for any further information.

Kind regards

**Jack Howard**  
CEO
